Principal’s Report

Hi everyone,

As we approach the mid-year break we feel a slight shift in focus towards assessments, examinations and reporting. It’s been great to see our students working hard on revision strategies over the past week or so, and I wish our Year 9 to 12 students well as they embark on mid-year exams next week.

Our student leadership group continue to spread positivity around the school, and they have certainly hit a chord with their “Four Square” competition over the last few weeks. It was fantastic to see such strong interest for the grand final at lunch time today, with music, a BBQ lunch and many students cheering on!

In staffing news, I’d like to congratulate Kiley Cunningham on successfully obtaining the Principal position at Longford Primary School. Kiley has made a significant contribution to our college over the past five years, and will be sorely missed by both students, parents and staff alike. We wish her all the best, and look forward to hearing of the great things we know she will achieve at Longford Primary.

As you may be aware, “Challenging Learning” is a significant focus for our college. This broad concept encompasses the Growth Mindset philosophy we introduced last year; we know that students who truly believe they can learn and get smarter (as is supported by the scientific evidence), will do better in just about all aspects of schooling.

Challenging Learning extends this philosophy further to ensure we not only teach our students traditional facts and knowledge, but we also teach attitudes and skills needed to be lifelong learners. These include things like persistence, resilience, organisation and critical thinking.

On Monday 20th June we will have a school closure day where all teachers will hear from international expert on Challenging Learning, James Nottingham. We look forward the learning this day will bring, and the opportunities to utilize it in the classroom with our students. For more information, feel free to visit our website.

Adam Hogan, Acting Principal
Sub-School News

PROM Year 11 & 12

Senior School Prom
A small, but dedicated committee have been busily planning the Senior School Prom. The prom this year will be held on the 10th of June, at the Maffra Memorial Hall and the theme is Casino. Tickets are available at the office for $15.

Absences
SACs - Just a reminder that if students have missed any School Assessed Coursework session/s they will need to obtain either a medical or statutory declaration. These should be given to their Year Level Co-ordinator or Kath Shepheard. All students who miss a SAC are expected to attend SAC catch-up on the following Thursday after school.

Home Study
A reminder that all students are expected to be here before the first bell on each day – even if they have a study session in the morning. Home study permission only applies to sessions 3 and 4. Briefing is very important, and Year 12s must be at school for their study session on Tuesday mornings.

Year 12 Parent Teacher Interviews
Parent-Teacher interviews for year 12 students will be happening in week 4, Term 3. This provides both students and parents to have a discussion with staff before exam revision.

Exam Revision for Unit 3
There is a considerable about of information on portal in regards to unit 3 revision sessions. These are a great opportunity for students to revise the topics learnt this semester. Students wishing to attend the Access Monash Lectures, for which they receive a discount should sign up next week.

Uniform
Just a reminder that all students need to be incorrect uniform. We understand that at times there are circumstances that prevent students from being in correct uniform. On these rare occasions can you please make sure that your son/daughter brings a note.

Year 10 Matters

The semester one 10C2 students had the opportunity of completing work experience during the last week of term 1. The evaluation and feedback which we have received have been very positive. We congratulate the students on their excellent preparation and attitude whilst on work experience.

Those students who are not venturing to Darwin during the final week of term have another opportunity to participate in work experience. Such experiences are invaluable and help students gain insights into possible future careers. Students have been reminded during Year 10 assemblies this term and all documentation is required to be submitted to either Ms Clancy or Ms Burgess by Friday 27th May.

As well as having the opportunity to complete work experience, the students have also participated in mock interviews. In preparation for their interviews, the students had to submit an updated resume, covering letter, address 3 set questions and dress appropriately for the occasions.

We would like to thank David Ward and Joe Baldacchino (AGA), Tony Wallace (Rotafab), Nathan Smith (Duart’s), Kim Kell (Victoria Police), Rylie Evers (APM), John Bodey (DPI), Brad Evans (545 Primary School Sale) as well as Mr Hogan, Ms Ray, Cath Macdonald and Don Veale.

Once again the feedback we received from our interviewers, regarding the students preparation and ability to address the questions and communicate in an adult manner, was very favourable.
Year 10 Federation University Trip

On Friday 13th May Ms Stone and I accompanied the 10C2 students to Federation University for a day where students experienced life at a University campus. For those who did not wish to go to university it was a valuable day as many of the Federation Training courses take place at this venue.

Students participated in a Great Race to familiarise themselves with the University campus, obtained information on different courses, had the opportunity to ask current students questions relating to uni life and learnt about their brain and study techniques.

First Aid News

STUDENTS WITH ASTHMA:

Just a reminder to parents with students who have asthma that the Department of Education and Early Childhood Development (DEECD) policy requires that every student with asthma attending the school should have a written Asthma Action Plan, completed and signed by the child’s medical practitioner, this plan will help your child to participate fully in school activities safely. If your child has an Asthma Action Plan could you please provide a copy to the school?

We have emergency asthma first aid medication to be used as a backup for when students may not have their own puffer and spacer with them at the time, but ask that Parents/Guardians ensure their children have an adequate supply of appropriate asthma medication (including a spacer).

It is vital that staff know what to do for your child in an asthma emergency. With this in mind, it is extremely important that we have an up to date asthma action plan and current contact details for parents and guardians. It is also very important that you provide the school with a number of emergency contacts.

Kerry Liddell First Aid
GENETECH: Gene Technologies @ GTAC

A small group of Year 8 students visited the laboratories at the Gene Technology Access Centre (GTAC) in Melbourne this May to learn about new technologies in DNA.

During the workshop they:

- investigated the inheritance of the genetically inherited disease, Achondroplasia. They used gel electrophoresis to determine if an unborn baby will have the disorder.

- used different types of microscopes (light, fluorescence, scanning electron microscopes) to learn about blood disorders, cancer, ecosystems and mosquito populations.

- Use spectrophotometers to analyse whey protein concentrations in milk. They investigated which cows would enhance milk quantity and quality by performing chemical tests on the milk.

The students also visited Melbourne University for lunch and learnt about the different types of careers involving Science and Technology.

Our Year 8 students worked with other schools from around Victoria and represented the college to a very high standard. They should be commended for having a go (including battling the early morning public transport) and for their excellent behaviour.
YEAR 8 BROADENING HORIZONS

In a couple of weeks the Broadening Horizons program will begin for our Year 8 students. The program will kick off with a LAUNCH at the Maffra Memorial Hall on:

Wednesday 15th June
9:30am – 10:30am

If any parents are interested in the program, or would like to come along and find out more, please come along to the Maffra Memorial Hall on that day.

Students should be beginning to think about an investigation they are interested in and thinking about which team they could work in for their science project.

SAVE THE DATE!

This year’s Maffra Science Expo will be a culmination of the Broadening Horizons work conducted by the Year 8 students in Term 2 and 3. The Expo will be held during both the day and evening of:

THURSDAY 18TH AUGUST

WE WANT YOU!

Parents and friends.......If you work in local industry, small business or the government sector and would like to be a part of our program you can do so in the following ways:

- Become a mentor and work with our students in small teams by coaching them through their project
- Come and talk to our students about local careers and the pathway you took to your current career
- Help organise a tour of your business or workplace: we are looking for places to groups of students to showcase the variety of careers in Gippsland

If you can help in any way, or you would like to be involved in the program, please contact:

Kylie Lambert
Broadening Horizons Coordinator
Maffra Secondary College

7E Science

7E has had a busy term in science. We started the term making parachutes for eggs, which we tested in the theatrette.

Recently, students have completed their Bunsen Burner licences, and have started investigating how to separate mixtures.

8A and 8D Science

Year 8’s have been working hard to understand the systems within our bodies. They completed a dissection of a chicken wing to examine different types of tissue. They then dissected a sheep’s heart.
**Sport**

**Badminton**
On the 26th of May, 3 intermediate teams and one composite team of footballers went to Yarram to compete against other schools in the Wellington Shire District. There was an A and a B girls team who both went up against Sale College. The A team were able to win against Sale College while the B team lost against them. The Maffra A team won the round and will move on to the next round which takes place in Morwell on the 22nd of July. While the boys had 4 teams to play against, they came second. They will most likely go through to the next round as the winning team was made up of boys from Maffra Secondary College and other schools, therefore not a valid team to go on.

By Amy Dunn, Shirley McLean, Josie Elliott and Carly Einsedel.

**Football**
Our senior girls football team played two hard-fought games. We were able to take the win against Sale Secondary College thanks to some awesome work in the forward line by Sheree May and Kaila Goodwin. Megan Maxfield was finding the ball all over the ground, and Alex Gallatly was clearing the packs effortlessly.

Final scores 4-3-27 to 0-2-2. Our second game saw us up against a polished Lavalla outfit. Despite working hard all game, the girls were unable to get much of the footy. Amy Dunn was terrific keeping us in the contest most of the game. Georgia Collins was able to shut down some of their best players, and Laura Davis and Deanna McQuillen tackled ferociously. Tammy Shanks, Melissa Ryan and Josie Elliott were also instrumental in moving the ball forward. Well done to all the girls for their excellent sportsmanship, and special thanks to ‘Coach Jamo’ for leading the girls well.

**VCAL Work Placement**

Joel taking a break from his hard work at the Wellington Shire Maffra depot.

Kaitlyn helping with the daily operations of Maffra Vet Centre.

Nick applying the finishing touches to cabinetry at Cabinet Connections in Sale.

Natalie assisting in the babies’ room at Duke Street day care facility.

**Year 10**
During the exam period, you have normal classes, except when you have a scheduled Year 10 or Year 11 exam. You are to be at school in full school uniform.
Be on time to your exams, we need to start at the starting time.
No mobile phones or MP3 players.
Water in clear bottles, no labels.
Bring the appropriate equipment: pens, pencils, eraser, highlighter, dictionary, calculator and notes sheet, as directed by your teacher.
You are not permitted to leave the exam early, even if you do not choose to use the full allotment of time.
All exams are in the Maffra Memorial Hall.

**Year 11**
You have normal classes until the end of Thursday 2nd June.
You do not have to be in school uniform during the exam period.
Be on time to your exams, we need to start at the starting time.
No mobile phones or MP3 players.
Water in clear bottles, no labels.
Bring the appropriate equipment: pens, pencils, eraser, highlighter, etc as directed by your teacher.
You are not permitted to leave the exam early, even if you do not choose to use the full allotment of time.
All students doing a Unit 3/4 subject must sit the GAT on Tuesday the 7th June.
All exams are at Maffra Memorial Hall, except Methods in T1 and Music in A6.
Semester two classes start on the 14th June.

**VCAL**
You have normal classes during the exam period.
2nd Year Engineering and 2nd year VET Hospitality students will sit the GAT on Tuesday 7th June at the Maffra Memorial Hall.
You are to be in full school uniform on the days you attend school.
Semester two classes start on the 14th June.

SUSTAINABILITY

On Friday 22nd April, the launch of the first phase of the Trailblazers project was held at the Rail Trail between Maffra and Stratford. This project involved a collaboration between Christine Richards from the Gippsland Plains Rail Trail Committee, Carmen Lee from Landcare, and students and staff at MSC, and was funded by a Local Landscape Enhancement grant from the Victorian State Government.

The day began with 31 Year 7 students arriving at the trail for an exciting day of competition. The students broke up into six teams, and moved between different stations along the trail, earning points at each station. At one station, they worked with Erin Nowak from BugBlitz, and used geocache technology to find and then identify bones of different species; at other stations, the students identified as many species of birds and insects as possible, working with teacher David Montague and John Caldow from BugBlitz. At the “Planting” station, students learned about plants indigenous to the area and how to plant them, and then raced to plant as many as possible. At the “History” station, the “mystery object” activity asked students to guess the use of different artefacts found along the trail. The station leader awarded the team points for skills and teamwork at the end of each activity, and the winning team was presented with a certificate and a $30 iTunes voucher.

The day began with a “gaiter race” to see which team could work together to get their gaiters on in the shortest time.

Students hone their historical skills, working with Christine Richards to identify the use of some “mystery objects” found along the trail.

Photographing insects with John Caldow; planting indigenous plant species; identifying birds with Monty.
At lunch time, the launch began. The Year 7s gathered at the original Briagolong branch line turn-off, where our VCAL students prepared, served and enjoyed a barbecue lunch for staff, students and members of the community who had joined us to celebrate our achievements. The launch opened with local musician Gary Rose from the Briagolong Bush Band performing “Last Train to Briagolong.” Mayor Darren McCubbin was MC for the event and there were speeches by local politician Tim Bull and Helen Hoppner, who is the chair of the Rail Trail Committee. Year 9 student Michael Airey, who worked on the historical signs, spoke about the project and the signs were unveiled. Certificates were presented to the students who contributed to the project so far. We hope that this will be just the beginning of an ongoing collaboration that will teach our students about the environmental and historical uniqueness of their local area, and that they can make an active contribution to their community.

So, take your bike or walking shoes, and head out to the Maffra-Stratford section of the Rail Trail. The following features of the trail show the value of our students, staff and community collaborating together:

- The restored green seat, which was made by Shay McCalman and James Ronalds, supervised by VCAL teacher Carl Johnson;
- The redgum timber seat, which was designed and constructed by James Ronalds, Bailey Escreet, Sam Nicholson and supervised by Greg Gilbert;
- Interpretive signs, which detail the history of the Flax Mill, Powerscourt Homestead, the Briagolong branch-line turn-off, the Stratford elephant and the lady who drowned in the floods, by Michael Airey, Adelle O’Doherty, Liam Ahchow and Indy Keith, and supervised by librarian Jacinta Fleming (to be installed very soon);
- The distance markers, which were completed by VCAL teacher Greg Gilbert;
- Plantings near the DEPI office, by VCAL students and the Green Army, supervised by teachers Veronica Hudson and Sue Clancy;
- The partnership sign, explaining the project and the partnership between the Maffra and District Landcare Network, Maffra Secondary College, Wellington Shire Council and the Gippsland Plains Rail Trail Committee, completed by Christine Richards.

A special thank you to the staff who gave their time to make the day such a success: Sue Clancy, Veronica Hudson, Jacinta Fleming, Kylie Lambert, David Montague, and Tim Liddell. The VCAL students who helped set up and pack up so efficiently, in particular James Ronalds, Dennis Keck, Shay McCalman, and Andrew McKenzie, were also integral to the success of the day.

Nicole Heber
Sustainability Coordinator
Careers

WHY RESEARCH CAREERS? Researching ideas for careers and training while at school is becoming increasingly important. With automation of many jobs developing rapidly, many unskilled jobs (and some skilled jobs as well) are rapidly disappearing. A willingness to obtain qualifications and to re-train when necessary will be VITAL for a young person’s future. It is believed that at least Certificate III level qualifications (preferably higher) will be essential to obtain on-going work (ie Certificate IV, Diplomas, Advanced Diplomas and Degrees). Resilience, determination, and education will be essential to remain employed.

Remember too, the importance of Science, Technology, Engineering and Math’s (STEM) careers. These are some of the areas offering growth and opportunity in employment. Research shows that 75% of the fastest-growing occupations now require STEM skills, so we must build a workforce of tech-savvy future employees. Digital literacy is vital for everyone. The digital revolution has led to many new jobs and new ones will develop that we have never begun to think of.

An excellent website to check out is www.joboutlook.gov.au. Here you will find details of what jobs involve, average salaries, and, perhaps more importantly, the likelihood of employment growth in that job.

OPEN DAYS – Open Days are held at universities and TAFE institutes each year, giving the public the opportunity to see the facilities, talk to staff and students, collect information and attend information sessions. They are generally held on Sundays later in the year, but dates are provided here so that you can put them in your diary now.

Open Day dates 2016
- Sun 31 July – Swinburne University
- Sun 7 Aug – Deakin University (Warrenbooi); La Trobe University (Bundoora); Monash University (Caulfield & Clayton)
- Sun 14 Aug – ACU (Melbourne), La Trobe University (Bendigo); Monash University (Peninsula); RMIT University; William Angliss Institute
- Sub 21 Aug – Box Hill (Lilydale campus); Deakin University (Waterfront & Waurn Ponds); University of Melbourne

EXPLORE CAREERS VIRTUALLY:
The Next Step Virtual Careers Expo is a great way to explore career options, courses and a wide range of Career information. This EXPO is only open until JUNE 30TH... so get online now and start thinking about your future!!
http://acce.6connex.com/event/fgc/login A world of opportunity awaits you...

DEAKIN NEWS –
- Faculty of Business and Law – preparing to find a job will soon be part of the Commerce course, with a compulsory unit in career planning being piloted. This Personal Insight unit will provide career development experiences, and has a clear focus on co-creating a professional identity. Explore personal aspects of yourself to create a portfolio of career resources.
- New Website coming – Scheduled for launch on 23 May, the site will be ground-breaking in the sector, combating problems commonly faced by university websites. See: www.deakin.edu.au.
- Elite Sports Precinct Developments – The first stage of the new Elite Sports Precinct has opened at the Geelong Waurn Ponds campus providing state-of-the-art facilities for exercise and sport sciences and physical education teaching students, and student engagement/community sport.
- Kickstart your Course and Career Exploration at Deakin – ‘Explore’ is a digital tool enabling you to search for courses and corresponding career possibilities, and vice versa. If you don’t know what to do when you finish school and want help with ideas, give it a try!
  - View more than 1000 course and career pairings
  - Filter your search based on your interests
  - Save your favourites and share with friends
  - Enjoy short snippets of relevant information
  - Visit explore.deakin.edu.au.

Maffra Secondary College Careers Expo Information Night
Date: Wednesday 20th July
Where: Maffra Memorial Hall
Time: 6.00pm – 8.30pm
VCE LECTURES AT THE UNIVERSITY OF MELBOURNE – The Faculty of Arts is offering VCE Winter School for Year 10-12 students. There will be lectures, seminars and tutorials in three VCE subjects: Literature, Australian History and History Revolutions. The program is developed with VCE experts and examiners, giving students the opportunity to excel in their VCE exams. When: Literature - 27 and 28 June, Australian History - 29 June, History Revolutions – 30 June and 1 July; Where: Old Arts Building, Melbourne University; Bookings: email vce-arts@unimelb.edu.au.

DESIGN EVENTS COMING AT SWINBURNE – Swinburne is offering a Discover Design student holiday program. It is a creative school holiday program for Year 10-12 students who would like to learn more about design careers, courses and pathways. Participants will develop a design portfolio, broaden their problem-solving and design-thinking skills and work in teams – just like in a real design studio. When: 5-8 July (registration 9am for a 9.30am start); Where: Level 3, Advanced Manufacturing design Centre, Hawthorn campus; Cost: $160; Register: Register now.

EXPLORE THE MELBOURNE SCHOOL OF DESIGN – The University of Melbourne’s School of Design (MSD), located at the heart of the Parkville campus, is designed as a learning building. Students learn not only in classrooms but also by using the building and observing ways others use it. The new building provides opportunities for ‘living learning’ through studio classes, exhibitions, tours, photo documentation and teaching on and around the site. An app has been designed to enhance your experience of the building. Take a self-guided tour, see why some key design decisions were made, and why the building is unique - www.explore.msd.unimelb.edu.au/explore.

RMIT – FOLIO PREPARATION COURSES – RMIT’S folio preparation and career discovery courses are designed to help you create a winning folio to apply for university. These types of courses also provide an overview of the industry, study options, and the selection process. Upcoming courses include: illustration, fashion, 3D product design, graphic design, interior decoration and visual merchandising. Information: Call 9925 8111 or click here.

LA TROBE UNIVERSITY NEWS – The Bachelor of Criminology is being offered in 2017. Unlike some other criminology degrees, this particular degree will feature forensics as a core component. It will also include Integrated Workplace Learning (IWL) as a part of the course, giving students the opportunity to use their knowledge, and to assist with future employment.

ASPIRE, a well-received and recognised initiative for domestic undergraduate school leavers which has been operating for two years now, will continue into 2017 and beyond. The program recognises the positive impact that a student has had on their local community. Community engagement and objective school achievement forms a significant part of the assessment criteria of the program, not ATAR scores. Applications for 2017 entry open on shortly on 1 June and close on 31 August. See: www.latrobe.edu.au/aspire.

NOTE: The program has special links with the CFA, the Duke of Edinburgh Award and St Johns Ambulance, however, students with many types of community engagement are considered.

WHERE MIGHT A SCIENCE DEGREE TAKE ME?
• Are you fascinated by nature? You can discover more about living things with biology and environmental science or even biotechnology where you can learn about everything from farming to pharmacy products.
• Do you want to be at the forefront of technology? A career in chemistry allows you to test and produce anything from penicillin to polythene or if you’d like food for thought consider the potential of food science.
• Are you curious about the universe? Physics looks at the smallest sub-atomic particles and the forces of the universe but if you want to explore a new frontier of science, discover nanotechnology.
• Are you intrigued by the potential of numbers? Mathematics finds patterns and connections and can help to model systems and develop theories and formulas while statistics can allow you to predict trends by using data to make conclusions. If you fancy yourself as a forecaster, analytics can help you see preferences and anticipate actions.
• If maps and modelling interest you, this could lead you to a career in surveying. Alternatively, find out how location has an impact on the way we interact with world around us with geospatial science.
Heyfield Community Resource Centre

Assertiveness for girls:

Girls - let your voice be heard!

Learn why assertiveness is so important for girls and young women, strategies to gain confidence, when to speak out and the most effective ways to do so in a variety of situations.

This FREE session is run by Marie Ross, an experienced counsellor and is highly recommended for girls, young women and their parents.

Thursday 16th June, 5pm to 6pm.

Heyfield Community Resource Centre,
5 George Street, Heyfield.

**Course information for students studying Year 9-12 in 2017**
Dear Parent / Carer / Friend,

Parents Club is running a Tea Towel Fundraiser!

The unique tea towel design is made up of drawings by your children in year 12 and our later years staff at Maffra Secondary College. The drawings are arranged into one commemorative design and screen printed in Royal, onto high quality white tea towels.

We chose tea towels to celebrate your child's achievement of completing year 12, they produce a wonderful memento and meaningful gift for parents, relatives and special friends. The tea towels look amazing, are so easy to post and make a fabulous reminder of your child's later years.

**ONLY $15** for a limited edition tea towel. Tea towels can be ordered by dropping the order form below with payment to front office in an envelope clearly marked “TEA TOWEL ORDER”.

Make sure you don’t miss out! Preserve your child’s year 12 artwork and remember friends and teachers forever! We can’t do it without you - support your children and Maffra Secondary College Parents Club and place your orders now.

Final orders are due before → 23/6/2016

If you have any queries please contact Marisa Huts - 0419095380

---
